Pure Fun: The Joy of Play

Our toys are here for one main reason - to bring kids joy. We focus on creating toys that encourage imaginative play, creativity, and, most importantly, fun. These aren't just any toys; they're the ones that will host tea parties, build castles, and explore unknown worlds. That's the Mentari experience - simple, enjoyable, and memorable.

Child Development: More Than Just Playtime

Mentari toys skillfully blend play with learning. Our range supports fine and gross motor skills, encourages imaginative play and social interaction, and nurtures cognitive development through problem-solving challenges. Our approach transforms playtime into a foundation for building essential skills, ensuring every moment of play is a step toward growth.

Quality: Built to Last

When we talk about quality, we mean business. Our toys aren't just fun; they are also built to last. All of our products comply with EN71, ASTM, ISO, and SOR standard safety of toys. We use non-toxic paint and maintain rigorous quality checks throughout the manufacturing process, ensuring future generations can also enjoy our toys.

Sustainability: Our Practical Approach

At Mentari, we're all about practical sustainability. We craft our toys from rubberwood, a by-product of the latex industry, making clever use of resources that might otherwise go to waste. But what makes us so special is that we also plant a new tree for each tree we use. We have eliminated all single use plastic and all production takes place under one roof ensuring maximum efficiency and minimum waste. So when you buy a Mentari toy, you take a small but impactful step in caring for our environment, and so ensuring a better future for our children.

Our Team: The People Who Make It Happen

Mentari is so much more than a brand - it's a family. Our factory in Indonesia and offices worldwide have been home to a wonderful and dedicated team for over 30 years and they are at the heart of Mentari's operation, ensuring the highest ethical standards throughout the supply chain.

From Start to Finish: From Us, Directly to You

We handle everything in-house, from the initial design to the final touches. This hands-on approach means we're involved in every step, translating to a consistent user experience. Each toy is hand-painted, assembled at our site, and checked thoroughly to ensure it's up to the highest standards. By keeping things under one roof, we maintain the authenticity of Mentari toys, ensuring each piece is genuine, well-crafted, and ready for playtime.
