

ABOUT US

We are delighted to introduce a lovely line of childrens' gifts, textile aprons, rag books and soft toys.

All of our products are born out of a love for great British design and are all imagined, and created here in the UK. Our unique and original illustrative style stimulates imaginative and creative play - essential for the curious and inquiring minds of our children.

All of our products are ethically made and we only use a bio-degradable coating for the wipe clean lamination.

We care hugely about our childrens' future and the future of our planet. We are proud to be Seed Partners with Eden Reforestation Projects. For every order placed with us, including orders for Tender Leaf Toys, we are committed to planting 10 trees with Eden in areas around the world badly affected by deforestation.

We hope that you enjoy our products as much as we do creating them.
