BRAIN DICE

Finally a puzzle where you can win every roll!

Place all six dice randomly in their molded chambers, then turn the knobs until the combinations on all sides equals the number of pips on the dice.

Don't think it's worth the gamble? Well, it's not as dicey as you think. With literally thousands of numeric combinations, there is always a solution... all it takes it just one more roll.

Age 9+	Mastercartons 24 pieces (inners of 6)	Barcode 8717278850405
Player 1	Suggested Price €19,95	Item code #RT31

ICOSOKU

Matching dots to numbers

Place the number tiles in random slots, then match the number of dots on all five intersecting triangles to each tile. All done, right? Not so fast. Now you can build your next challenge – simply swap a few number tiles and the game continues! Remember: a solution is always just around the next twist. With the perfect geometry of an icosahedron, Icosoku can be solved every single try!

BRAINSTRING ORIGINAL

It's knot what you think

Three groups of different colored strings on six sides glide through the grooves and tease your brain in this unique, eye-catching puzzle. Once you master untying scrambled tangles, can you swap the colored strings around without making a knot? Brainstring Original is fun to play with and even more fun to solve!

Player 1	Suggested Price €21,50	Item code #RT01

BRAINSTRING 'R'

Take it for a spin

With 8 sides instead of 6 and 3 strings per side instead of 4, this Brainstring offers an even more confounding challenge!

Make a knot, or straight lines, or makes patterns of your own with the nylon strings — holding the polycarbonate orb and grabbing the strings the ergonomic nubs is a joy for the brain AND your fingers!

BRAINSTRING HOUDINI

Even Houdini needs your help!

The greatest escape artist of all is tied up – and he needs YOU to set him free! Slide the strings round and round the master himself, until you've wiggled him out of his 'chains'. But then, can you put him back in? (don't worry, Harry won't mind!)

Player 1	Suggested Price €21,50	Item code #RT26

BRAINSTRING ADVANCED

If you like Brainstring Original, you'll love Brainstring Advanced!

With eight sides and four color groups, Brainstring Advanced is a playground at your fingertips – slip the strings through the pathways to create mighty knots, untangle the knots, slide the ergonomic nubs around without making a mess, or enjoy weaving your own designs. There are unlimited possible configurations, so brainstorm your way through the Brainstring Advanced!

EQUAL 7

Rule your roll

Luck won't help you with this puzzle – but you might wish it would! Equal7 is a mathematical masterpiece with two different challenges, each a different level of difficulty. Tilt the cube and slide the dice to and fro, until all the dots on each side equal the same number – 10, 11, and 12 are all possible combinations, with more than one way to get there. Once you've conquered those combinations, the real test is getting to seven – Equal7! Once you've solved it, present your achievement on its own built-in pedestal. Now the puzzle is your trophy!

PLANETS

Got a plan for the planets?

No need for a telescope to see the gravity of this challenge! Each of the four spheres has interlocking craters, requiring you to rotate the balls within their own orbits before finding the overall solution.

Twist & Solve, get one solid color per side!

SYMMETRY PUZZLES

**Sturdy, uniquely designed metal blocks...
solutions in shapes you never quite expect!**

"YES" Bars

Y-E-S is the easy part! Rearrange all three individually symmetrical metal letters until you have a single symmetrical shape. There's only one solution though — and you may be saying "no" after a few attempts before you successfully say "Yes!"

The Chimera

Two crafted metal pieces that form one symmetrical image — is it a sign? A building? Perhaps it's a person, you think, as you try another combination... but with limitless ways to join them, and only a single unique solution, you'll find that this puzzle is a real headscratcher!

Chichen Itza

Chichen Itza, ancient capital of the Mayan civilization, is famed for its pyramid temples and giant steps. Can you summon the wisdom to create two different symmetrical shapes? There is a hint in this description...!

Broken Twig

Think sharp! Rearrange the custom metal "twigs" until they form a shape with identical sides. With only two pieces, and with not just one but two solutions, you may find this puzzle stickier than expected!

CUBIGAMI7

You've never done origami quite like this!

Flip the tiles up and down to make different "Cubigamis".

The first one or two are easy enough, but the real challenge is seeing through all three dimensions to craft all SEVEN shapes.

MIKE HARMAN'S MATCH & PAIR

Based on the art of Mike Harman

Mike Harman is a truly original English artist born in 'the garden of England' Kent. He is also the creator of the Colour Buddy Concept and the 'Imagination Pictures'. His immensely unique artwork was the base for two new games: Match and Pair!

Pair!

Test your memory to the max!

This seemingly simple game goes one step further. Merely eight identical pairs of square tiles to match must be child's play...right?

Match!

Match requires a sharp mind and quick reflexes.

With two identical sets of eighteen playing cards, you'll have plenty of chances to find matches. Better think fast, though – with Match, all players search for matches at the same time.

Meffert 's Collection

Uwe Meffert started designing rotational puzzles in 1970 with the invention of the Pyraminx. Since then, he has created over 100 styles of twisty puzzles that are exclusively distributed by Recent Toys, worldwide. The Meffert's brand stands for high quality, innovation, and for having the "World's largest range of twisty puzzles". Meffert is an icon in the industry and his products are a must-have.

New packaging

Recent Toys is proud to announce that we are developing and implementing packaging for Meffert's Collection that is free from single-use plastic as a part of our mission toward sustainability. Over the course of the next twelve months, we will replace our current packaging for Meffert's Collection with new plastic-free versions.

As of March 2023, the first batch of products will have new plastic-free open packaging.

Look for the icon to see which items will have the new packaging from March.

Further rollouts for this collection will happen as the year goes on.

The new packaging will be the same size and will fit in the old displays.

If you have any questions regarding the new packaging, please contact us.

GEAR BALL

SKEWB XTREME

X-treme puzzle fun!

Skewb Xtreme pushes puzzles to the limit! The first challenge is solving the puzzle so that each side shows one of ten solid colors — tough for sure, but not impossible (we promise). The second challenge, of course, is whether or not to 'solve' it at all: symmetrical from nearly any angle, the X-treme is so beautiful, you may just want to show it off!

XXL GEAR CUBE

You'll have your hands full!

With its constantly shifting gear mechanism, Gear Cube XXL is the newest concept in puzzle design. Twist and turn the cube to mix it up, then solve by returning all six sides to solid colors. But this isn't your average cube... one full rotation requires twelve 90 degree turns. A unique puzzle — and literally TWO handfuls to solve!

TOUGH MEASURES

The ruler of all puzzles

With Two mazes, two balls, everything connected by giant gears. On their own, each maze is manageable. Can you find the way to remove both balls from the mazes simultaneously, though? Careful! The gears move at the same time, so a step towards the exit on one side may be a step backwards on the other.

THE WAITER'S TRAY

This waiter is ready for a break—but first he must remove all the bottles from his tray

Can you help move the bottles up and down to gradually slide them all out of the tray? Think twice: some bottles need to be moved more than once, and some are locked until you move the balls holding them in place. Upon completion, why not try putting the bottles all back?
